*Nipperbout is a short-term main stream facility without the resources of referral units and additional needs centres. Whilst we strive to be as inclusive as possible, a mobile crèche facility is not always an appropriate setting for children who struggle in mainstream school. Therefore, in the interest of the health and safety of your own and other children, we ask parents to take time consider whether this will be a *fair environment* for their child.

At each event, your child will experience *new staff, strange environments, unknown peers and new activities and outings*. The following information will help to ensure that your child has a positive experience for the duration of the crèche.
