Stronger Together – campaigning on workload and for a new National Contract

The NUT is campaigning for a new framework of teachers' rights as an organising tool and to assist with national and local negotiations and campaigning.

What you can do:

- 1. Discuss with colleagues in school and in your local association what you would like to see included in a new National Contract.**
- 2. Complete our on-line questionnaire at www.teachers.org.uk/strongertogether and let us know your views.**
- 3. Union guidance and materials to help you with aspects of this at school and local authority level will be available on the Union's website. Consider getting together with colleagues to discuss ways in which you could do this in your school.**
